west-southwest. Vehicles and guns appeared to be factory-new and had apparently new tires.

1. Comment. The trains carried exclusively artillery units of the 12th Gds Tank Div. According to weapons, they belonged to the 226th Mort Regt, the unidentified AAA regiment and the unidentified Gds RL battalion. 25X1
 one of the two trains loaded on 4 June went to Forst Zinna. All three shipments 25X1
 presumably went to Justerbog for firing practices, although 25X1
 the train on 7 June left toward Wittstock. 25X1
2. Comment. 25X1
 The occupation strength of the former girls' school 25X1
 given in paragraph 4 is 25X1
 not more than 25X1
 about 200 men. After the transfer of the previous commanding officer of the 25X1
 division, Gds Colonel Yurenko (fnu), Gds Colonel Potemkin (fnu), 25X1
 can be carried in this position. 25X1
3. Comment. the shipment involved an 25X1
 AAA unit of the air force, which may have returned from firing practice. 25X1
 However, the unit presumably is equipped only with light AA guns, as no 25X1
 units with medium AA guns are believed stationed at Jaegerplatz in Neuruppin. 25X1
